

IF YOU
NEED
DECALS

WHO

We specialize in the manufacture of almost all kinds of stickers, decals and adhesives for various applications like cellular phones, tennis rackets, bicycles, motorcycles, helmets and others. We count among our clients some of the world's most well-known brands.

WHAT

Our company is located in the industrial area of Shengkang, Taichung County in Taiwan. We have been engaged in this business for well over a decade. Our experience however is not limited to simple production but encompasses the area of research and development as well. We can advise you which particular decal is the most suitable for your project to ensure a smooth application and production.

WHY

We have our own machineries and technologies. We do not subcontract to other factories nor printers. This means we can keep a close eye on quality and scheduling. Our master craftsmen are some of the best in the world. We work with you as a team, regardless of your order quantity. All of these at a reasonable price.
